

TEXTILENE®
SUNSURE®
BRAND FABRIC

The original
all-weather fabric.

TEXTILENE® SUNSURE® is a specially formulated high strength fabric built to withstand fading, mildew, soiling and wear and tear. SUNSURE® has up to a 92% shade factor making it the right choice for several outdoor applications. It is specially designed to remain vibrant and colorful for years even through continuous outdoor exposure and under the most severe weather conditions.

Due to the technical limitations of digital cameras and inconsistencies of display monitors, the characteristics and colors of the fabrics seen on your screen may be slightly different than the actual product.

*Custom colors and widths available.
Minimum order of 300 yards. Upcharges may apply.** Available in 60 linear yard rolls.

Color is the key factor when selecting a TEXTILENE® SUNSURE® fabric for awning or shade applications. Light colors are more reflective with a lower heat gain, and are more difficult to see through. Darker colors provide better daytime visibility. These colors absorb light and heat while transmitting less light and having lower surface brilliance. Twitchell's specially designed TEXTILENE® SUNSURE® fabric can create an ideal balance between unique high quality looks and the proper amount of shade.
